

Meeting Notes

ABL is working on a club brew order and will cover hops and grain. Let Zach know if you are interested in participating.

It has also been decided that there will be no raffle this year.

As COVID is still relevant, consider how often we should continue to meet as a club; should we change the frequency of the meetings, or keep it the same?

The beer competition calendar may look differently in 2022; there may be styles repeated or multiple competition styles at once, etc. There will be more activities planned as well, such as sampling defect kits.

No definitive plans yet, but we may do more outreach programs/activities to promote ABL to the community

Competition

There were no beers entered into the competition.
